

Please replace the section beginning on page 15, line 1 through line 14 as rewritten below:

Abstract

The invention relates to an electronic device ~~(1)~~ provided with means for manual entering of a key code. Said means comprise at least one selector ~~(2)~~ which is arranged to select said key code or an element of it. The invention also relates to a method for entering a key code in an electronic device ~~(1)~~ provided with means for manual entering of a key code. Said key code is selected by using at least one rotatable selector ~~(2)~~. The invention also relates to a wireless device and an auxiliary device ~~(1)~~ provided with means for manual entering of a key code. Said means comprise at least one selector ~~(2)~~ arranged for selecting said key code or an element of it.
